Gary,  
Chief Davis

I concur with you and Chief Davis, may the Creator always bless you for all you have done for many Indian Nations in the South of Texas. Chief Davis this is a great Vision you are sharing with all of us and thank you for your Wisdom and we are ready hands-on to work on tjos valuable input and outline. Kawa Makalo Ate.

Dear Gary,

I really appreciate your email and your advice of informing other agencies of past destruction and ask their help to alter future destruction of the Native American sacred sites on both sides of the border before they happen in pre-planning.

I am certainly willing to participate in any fact finding task force and with your experience and many other dedicated people, of history, American Indian and Angelo Americans, I think we could begin to accomplish in preserving some of these areas.

As you know, Chief Mary Torres, and other tribal leaders associated with San Antonio, have continued to work tirelessly to bring awareness to the destruction of Native sites in South Texas, including, bringing awareness of the unprotected burial grounds around Alamo Plaza in it's new development plans not to disturb these historic sites by new development.

Chief Mary and other Native American leaders associated with the five missions that first began to form the City of San Antonio, certainly know a lot more about this history than I do, although, our Adais Caddo people became part of the Mission Valero in 1792 and the documentary, "Texas Before the Alamo, gave me an opportunity to connect with them. I think Chief Mary and the message of the other Indian leaders, are slowly taking place indirectly more than direct interaction with the powers of the City of San Antonio and the new Alamo Plaza and the future plans of Alamo Plaza.

Hopefully, we can all come together to lend our resources and knowledge to get all of this very important Native American history and burial grounds to be included and considered in the proposed UNESCO World Heritage Site and include all the history at the beginning of the founding of San Antonio de Valero in 1718.

This is a history that should be told in it's entirety that all Texans, United States and the World can be proud of.

Again, thank you for your input and looking forward to meeting and working with you in the near future.

Chief Davis

Subject: Re: Dos Republicas destroyed (4) Archeological Sites of our Sacred Coahuiltec...

Chief Davis, Chief Torres,

Thank You for your attention to the claimed destruction of historical sites in the Maverick County area and beyond.

In order to stop this destruction, you must be able to stop it before it happens, not to say that the knowledge of past destruction is not important. Historical commissions on both sides of the border should be formally messaged by certified mail and this should be directed to the highest authority within those agencies.

A formal meeting with those agencies must be called both on the U.S.side of the border and the Mexican side of the border to form a fact finding task force. (Meeting facilities in both Piedras Negras and Eagle Pass are readily available as well as lodging).

It must be determined quickly as to what authority these agencies have over private landholders and a swift course of action to be taken.

The Kickapoo Nation in Maverick County (Eagle Pass) should be brought into this as well.

I want you to know, that I have years of experience on the ground with the University of Texas Medical School with their Human Studies -- Epidemiological Survey -- in Eagle Pass, Texas, known as "Au su Salud."

Again, thank you for your message.

Best,

Gary J. Gabehart, Mishiho -- Chief Operating  
Officer -- Inter-Tribal Council of American Indians
